What everyone is afraid to say to tobacco farmers.
"It's been a rough year."
It's as simple as that. Costs are soaring and profits are barely getting off the ground.
At Fidelity National Bank we know enough about farming to realize what kind of a year it's been. And what that's done to your profit margins.
But we also know that no matter how little there is left over from this year's sales, you've got to save as much of it as possible to get you through to next year's. And pay for seed, fertilizer, labor and equipment along the way.
Because we understand this fact—that your financial needs are not like everyone else's—we also understand that not every savings plan is right for you.
And we're ready to show you one that is—with continuous compounding of interest so your money can grow as quickly as you need it to. And full freedom of withdrawal so you can get it when you need it, too.
Fidelity National Bank.
When we say we're out to help you grow, we mean it.

Helping you grow helps us grow.
